

GJS-6014

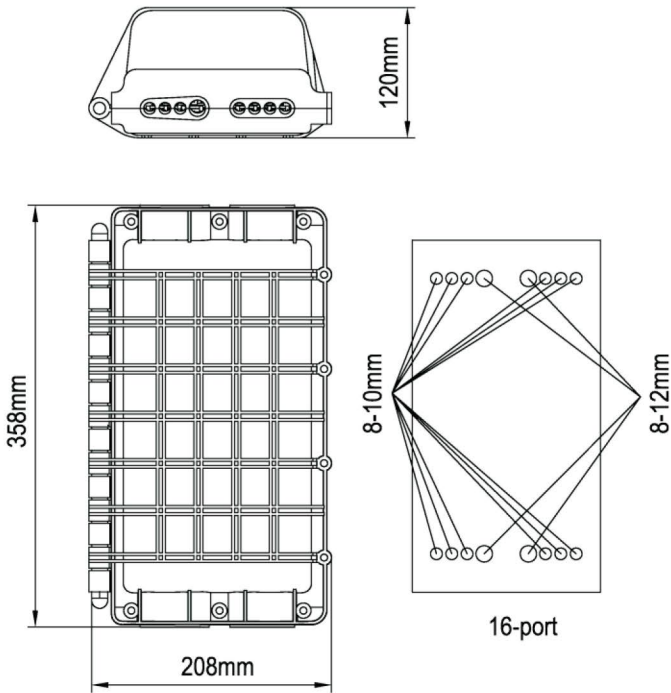

Features

- The closure adopts horizontal mechanical sealing and advanced internal structure design.
- To adopt engineering PC plastic with high-strength to make the closure has longer life time and excellent sealing performance.
- The closure is spacious enough for winding and storing fibers.
- The patented sealing structure keep good sealing performanc after re-entry and re-using.
- It works for mid--span and branching.
- It could save the installation time and improve work efficiently.

Applications

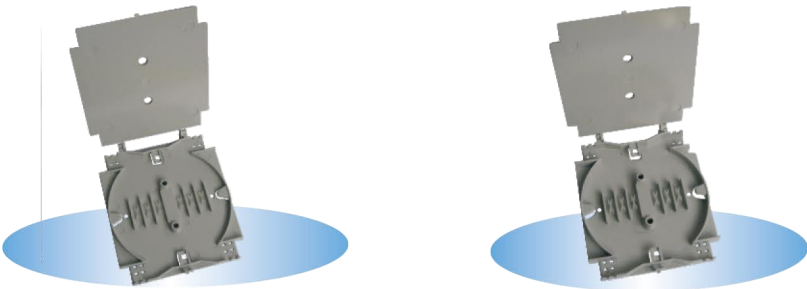

- ◆ Suitable for bunchy fibers
- ◆ Aerial, underground, wall-mounting, hand hole-mounting pole-mountingand duct-mounting
